FYI - it is IN I was thinking Dolores could take on since R5 knows 404g as well as anyone, although none have gone through an assumption effort so there would still be need to work together (Dolores and I) meaning me advise.

Hey EPA colleagues, I am feeling like I need to have another discussion with you regarding the status of Indiana's 404 assumption. Perhaps because I haven't had to get this deep into 404 before, I'm struggling some of the concepts. A quick glance of my calendar shows I have some flexibility on the 27th, any chance that Friday might work for call?

Also, I've attached our first draft of statutory revision language, this is just to get the concept approved and supported, so there is time to make adjustments if you see any key issues.
